

Last august 2011 was looking very promising for the blues, until we had 3 players leave, 1 going to live in the usa, another moving to the other side of lutterworth, and 1 lad taking up boxing! Also 1 lad picked up a long term knee injury and wouldn't be able to play for at least 6 games, so that left us very short of players meaning we were playing games with only 10 or 11 players, most of these early matches saw the lads in the lead but with no subs and fresh legs saw the boys loose the games by the odd goal!

We managed to sign a couple of new players, the return of anthony (got fed up with boxing) and the return of teddy after his knee injury, things started to pick up and by the second part of the season we were out of the bottom 3 and on our way up the table.

By the end of the season the lads finished a healthy mid table also making the supplementary cup final where the lads picked up a well deserved runners up medal.

So on the whole not a bad season at all.
