Dear Brinklow Football Club

On behalf of the Station, and Warwickshire Fire & Rescue, I would like to thank you for you're recent donation from the successful penalty shoot out competition that you held at the annual village fete. This was such an unexpected donation but very greatly received.

You are well aware that over the last few years the Fire Brigade has under gone a lot of changes and we are no longer a reaction force, our aims are now to educate the community on fire safety issues and prevent incidents from occurring. To carry out this objective it is essential we have a good relationship with the community, and I think this donation indicates in some way we are achieving this by the Club recognising our commitment.

To ensure we continue down this path I have suggested that the donation is put to good use and we produce a Community Fire Safety banner with standard fire related messages on it that we can use at different events that we attend, and it will clearly state that Brinklow Football Club sponsored it. I hope this meets with your agreement.

Once again I would like to thank you for this donation and your members for their continued support and recognition.

Yours

Moreno Francioso
Watch Commander
